- Summer is a critical time for children's health and well-being. When school is out, some kids no longer have access to meals and their families' budgets are often stretched to the breaking point. United Way's Let's Feed Our Children program can help. The program provides free meals to all children, helping kids who rely on school meals during the school year continue to receive healthy food during the summer without the need to register. Grab-and-go meals are provided free of charge to all kids and teens right here in our community. Please help by bringing in fruit cups. We will be collecting until April 17th outside Mrs. Pepper's room. Thank you in advance for your support.
- This week we are focusing on Asset 29: Honesty—being truthful with yourself and others. Honesty builds trust, strengthens relationships, and helps create a safe and respectful school community. As we move through April, remember that this month is also about well-being. Being honest about how you're feeling—whether you're stressed, overwhelmed, or doing great—is an important part of taking care of yourself. Let's start the week strong: be real, be kind, and be honest.
